COOPH MASTERS

We believe in bringing like-minded folks together to facilitate meaningful connections and help photographers break creative boundaries. The collaboration with our skilled COOPH Masters is evident in how we craft our products, present our content and engage with our community.

GREG GORMAN

It's safe to say Greg Gorman has been part of the photography world for a very long time. Shooting a Jimi Hendrix concert back in 1968 got him hooked, and since then he has been wowing the world with his black and white photography, and his experimentation with highlights and shadows for painting intricate pictures.

CRAIG SEMETKO

Craig Semetko is based out of Los Angeles, California in the USA and is known for his wildly authentic style and commitment to showcasing real moments involving real people. As a long-time teacher at the Leica Akademie, we're extremely proud to welcome Craig as a COOPH Master.

MARKUS BERGER

He often draws on his sporting background in his work and strives to capture images that are creative, authentic and true. Markus embraces his inner child and sees every shoot as an exciting creative challenge.

LORENZ HOLDER

Lorenz Holder is an action sports photographer based out of Munich, Germany. Able to evoke emotion through his photographs like no other, especially in the action sports genre, Lorenz's style is truly unique. For him, the perfect image combines the clean lines of architecture or landscape photography, with the explosive action that an athlete brings.

BENJAMIN VON WONG

Motivated by the desire to be creatively challenged and overcome impossibilities, Benjamin Von Wong has become notorious for his epic photography. His hyper-realistic art style captures viewers in a fusion of special effects and innovative concepts. Fueled by his passion to connect people, Benjamin has an affinity for finding unique talent to bring his complex stories to life.

LEO ROSAS

Leo Rosas is a Venezuelan photographer based in Salzburg, Austria. Throughout his career, Leo has worked with clients like Red Bull, ESPN, McDonald's and Vans footwear. Always on the lookout for cool new photo projects, Leo is happy to be a COOPH Master – it's his way of giving back to a community that has given him so much.

YOSHINORI MIZUTANI

Yoshinori Mizutani is a photographer based out of Tokyo, Japan. Inspired by the works of Robert Frank while rummaging around at a vintage photobook store close to his university back in 2010, Yoshinori picked up a DSLR and now never leaves home without it. His unique style of photography is influenced by his daily life, what affects him emotionally and makes him think outside the box; and that's what makes him a perfect fit as a COOPH Master.
